

Home Test Kits and reporting of positive cases over Easter

I would like to thank everyone for their support with the Lateral Flow Testing in School. As testing has started at home, we would like your son/daughter to continue to take a home test twice a week during the Easter Holidays. This is to reduce the risk of outbreak in the home, in school and in the wider community.

We are aware you have already received two test packs containing six tests in total. This will only last to the beginning of the holidays, therefore your son/daughter will be provided with more test kit packs before Easter.

Reminders:

- Please ensure your son/daughter takes a test twice a week (every 3 or 4 days apart). We are advising a Sunday and Wednesday evening.
- report every result to NHS Test and Trace on the same day you take the test.

[Report your test result online](#) or by calling 119.

If your son/daughter tests positive or gets coronavirus symptoms during term time or the Easter Holidays, they should:

- self-isolate immediately
- inform the school molesj@jhn.herts.sch.uk
- get a PCR test to confirm the result
- follow the [stay at home guidance for households with possible coronavirus infection](#)

A negative result means the test did not find signs of coronavirus. However, this does not guarantee you do not have coronavirus, so you should keep following all [coronavirus advice](#) including:

- regular handwashing
- social distancing
- wearing a face covering where recommended

If you require more home test kits:

Collect test kits

You can collect 2 packs of home test kits at a local collection point. Each pack contains 7 tests. Anyone 18 or over can collect. Most collection points are open from 1.30pm to 7pm. You can check online whether the location is open or busy before you go. You do not need to make an appointment.

[Find your nearest home test kit collection point.](#)

Order home test kits online

You can order 1 pack of home test kits containing 7 tests for home delivery. Your tests should arrive within 2 days.
